

ANDREW GOLDSTONE, M.D. – EAR, NOSE & THROAT

The Physicians Pavilion East • 6565 N. Charles Street • Suite 315 • Baltimore, MD 21204 • (443) 883-1009

TEMPORARY **TELEHEALTH** EAR, NOSE & THROAT APPOINTMENT AVAILABILITY Updated March 21, 2020

Our top priority is the health and well-being of our patients, families, staff and community. In this unprecedented time, we are deeply committed to keeping everyone safe.

In light of the evolving pandemic and out of an abundance of caution, we have decided to limit patient treatment due to the COVID-19 pandemic. Our office is heeding recommendations to voluntarily suspend non-urgent **in-office** ear, nose and throat care until further notice. To continue to best serve patients in the safest way and at the government's recommendation, Telehealth (Video phone call) appointments with Dr. Goldstone and Nurse Practitioner, Diane Wehrle are now easily able to be arranged.

We believe that this shift will allow us to more effectively evaluate this dynamic situation and assist in following the CDC's guidance on social separation. If you have an appointment scheduled with us this week or next, our office will be in touch to help you either reschedule or, if you so choose, to set up a telehealth appointment.

To schedule an appointment, simply call the office, as usual, during normal business hours.
Phone: (443) 883-1009

Dr. Goldstone or a covering physician will be available in case of a true emergency. Should you require urgent care, please call our office as you normally would and the covering physician will contact you.

We did not make this decision lightly. A great deal of care, research and planning guided our decision. We will continue to evaluate the situation as it evolves and determine on a weekly basis when it is appropriate for us to return to our normal business hours.

Again, please understand that we are making this decision with the health and well-being of our patients, our families, our team and our community in mind.

We wish all of you continued health and strength during this challenging time.

Sincerely,

Andrew C. Goldstone, M.D.
